Fast, clean brick wall

Solus Décor Inc. of Vancouver has come out with "Linea" a new wall-cladding material that creates a clean brick wall very quickly. The one-inch thick bricks are designed for dry stack applications, such as for a fireplace frame shown here, or a highlight wall. They are available in full and half formats with mitred corner, and Solus has them in a dozen colours. Solus is located at 1445 Powell St. in Vancouver.
