Moda Collection Fireplace Surrounds

Solus Handcast Concrete Décor

Solus Décor is introducing a new line of concrete fireplace surrounds, the Moda Col-

lection. A series of interchangeable panels and slabs of varied dimensions, the Moda surround suite can be used to best fit the homeowner's space and fireplace. Along with the Rondeau, another new surround, Solus Décor now offers 15 different models of handcast concrete mantels and surrounds. The company also makes a line of tiles up to 2 ft. by 3 ft., and hearths to match.

Copper Patio Heater

Well Traveled Living

A distinctive rich copper plated finish is featured on Well Traveled Living's new SHCDPH-CO patio heater. The 40,000 BTU/hr. heater has a warming range up to 8 ft. in diameter. The unit is piezo ignited and has stainless steel burners and a heating grid. It will burn up to 12 hours on a standard 20-lb. LP tank. The 20-in. base is weighted for stability. The 34-in. reflector hood is aluminum. This heater stands 91 in. tall. A similar unit is available in stainless steel. The company offers 11 different patio heaters, including four table top models.
